ERIC WONG YING WUI

Software Engineer

Full Stack Development · Backend Systems · API & AI Integration

Software Engineer with 4 years of experience building and maintaining web applications, business systems, APIs, and software integrations. Experienced across full-stack development using React, Next.js, Node.js, Python, SQL/NoSQL databases, and cloud/server environments. Recent work includes integrating AI capabilities into learning management and accounting systems for a Hong Kong-based company. Comfortable owning projects across frontend, backend, database design, deployment, third-party integrations, and technical coordination.

PROFESSIONAL EXPERIENCE

HEAD OF IT & DIGITAL / SOFTWARE ENGINEER

Grateful Healthcare | Aug 2024 – Present

- Led development and maintenance of internal business systems, ERP solutions, and company web applications.
- Managed application infrastructure, Linux servers, databases, deployments, and internal software integrations.
- Designed and delivered software solutions based on operational requirements across business teams.
- Coordinated software projects from requirements gathering through development, deployment, and maintenance.
- Supported technical operations and internal process automation.

SOFTWARE ENGINEER (CONTRACT)

React Digi Limited | 3-month contract (2026)

- Developed and integrated AI-powered features into university learning management systems.
- Implemented AI capabilities and API integrations for accounting software and existing business workflows.
- Integrated AI services with existing frontend, backend, and database infrastructure.
- Collaborated on system requirements, integration architecture, testing, and production implementation.

FULL STACK DEVELOPER

Intuitive Systems | Sep 2022 – Jul 2024

- Developed and maintained web applications, mobile applications, and internal management systems.
- Built frontend and backend functionality using technologies including React, Node.js, Express.js, JavaScript, MySQL, and Flutter.
- Designed and implemented REST APIs, database structures, and integrations between application components and external services.
- Developed responsive user interfaces and translated UI/UX designs into production-ready applications.

PORTFOLIO & PROJECTS

PRIMARY SCHOOL LEARNING MANAGEMENT SYSTEM

AI-INTEGRATED LEARNING MANAGEMENT SYSTEM

Tech: *React.js · Next.js · MySQL · AWS · Portainer · AI Integration*

- Developed and enhanced a learning management system for a university environment.
- Integrated AI-powered functionality into existing learning workflows and system features.
- Worked across full-stack development, database integration, deployment, and application infrastructure.
- Supported system testing, debugging, and production deployment.

HEALTHCARE INTERNAL ERP SYSTEM

INTERNAL BUSINESS MANAGEMENT PLATFORM

Tech: *React.js · JavaScript · Tailwind CSS · Node.js · MySQL*

- Developed and maintained an internal ERP solution supporting healthcare business operations.
- Built full-stack features based on internal operational requirements and business workflows.
- Integrated application components and internal processes into a centralized system.
- Supported system deployment, maintenance, and ongoing feature development.

WAREHOUSE MANAGEMENT SYSTEM & SALES MOBILE APP

INVENTORY, LOGISTICS & SALES OPERATIONS SYSTEM

Tech: *React · Node.js · Express.js · MySQL · Flutter · React Native · Ubuntu Linux*

- Developed an integrated warehouse management system supporting inventory and logistics operations.
- Built an internal mobile application to support sales operations.
- Developed frontend, backend, database, and system integration components.
- Maintained application infrastructure in a Linux-based environment.

PLIXSTAR

MULTI-VENDOR E-COMMERCE PLATFORM

Tech: *React.js · Next.js · Supabase · Railway*

- Developed a full-stack e-commerce platform with customer-facing, administrative, and vendor functionality.
- Built admin and vendor portals to support platform and product management.
- Implemented application functionality with database integration.
- Deployed the application using Railway and Supabase.

HK MODEL MANAGEMENT SYSTEM

MANAGEMENT & PAYROLL SYSTEM

Tech: *React.js · Next.js · MySQL · AWS · Portainer*

- Developed a web-based management system supporting model management and payroll operations.
- Built application features across frontend, backend, and database components.
- Supported application deployment and production infrastructure.

EDUCATION

BACHELOR OF COMPUTER SCIENCE

MAJOR IN ARTIFICIAL INTELLIGENCE

Swinburne University of Technology Sarawak

2019 - 2022
